

Why it is especially profitable to join CIGRE activities?

Joining a CIGRE Working Group as an expert always results in a high return for your organization as well as for yourself, all the more so for a young expert

- **You become part of a worldwide network of experts with whom you discuss current issues, share international experience and benchmark your own practices**
- **You are in a position to promote your ideas and weigh on the contents of specifications, recommendations and future standards**
- **Experts represent all the profiles of the power industry, hence a wealth of opportunities to start co-operation between University and Industry, between Industry and Administration, etc...**

At a personal level

- **You are in contact with other cultures, practices, working methods; you acquire knowledge through working with experienced experts.**
- **National/International teamwork and practice of technical English enhance your personal development**

How to join a CIGRE Working Group?

Contact your National Committee of CIGRE or CIGRE Central Office
