PANEUROPE INTERNATIONAL CONFERENCE

STRASBOURG

February 14, 2025

organized by :

PanEurope France & PanEurope Germany

with the support of

International Pan-European Union

and the collaboration of the professors holding the
« *Electrical Engineering* » and « *Computer Security* »
of the **CNAM** Conservatoire National des Arts et Métiers

the theme :

**NEW CHALLENGES
FOR THE CYBERSECURITY
OF EUROPEAN NETWORKS,
CONVERGENCE OF DIGITAL
AND ELECTRICAL ENGINEERING**

the place :

STRASBOURG EUROPEAN PARLIAMENT

WHO ARE WE ?

PanEurope
France

PanEurope France stems from an association created at the beginning of the 20th century by founding members of modern Europe, dedicated to the analysis of European strategic issues and its institutional, economic and geopolitical governance.

Based in Paris, its ambition is to be an independent force for dialogue and proposals in debates on the major issues facing Europe, at the crossroads of the political, institutional, economic and academic spheres.

PanEurope France organizes webinars, colloquia, conferences and informal meetings between opinion leaders and economic, social and financial players throughout France, and distributes its publications to political, institutional and economic circles. Influents in order to continually feed the debate in an effective and constructive way.

Working in synergy with its thirty national pan-European organizations, PanEurope France is a credible interlocutor, strongly committed to respecting the cultural differences and specific geopolitical approaches of each Member State and its citizens.

PanEurope France advocates a "European Union of Nation States based on solidarity and subsidiarity."

1st EUROPEAN CONFERENCE ON "THE 2 NEW DIRECTIVES CSRD & CSDD"

APRIL 26, 2024 - Assemblée Nationale - hémicycle Colbert

Sous le haut patronage
de Monsieur Emmanuel Macron
Président de la République

PANEUROPE France & son partenaire expert ANDV
ont présenté le 26 avril 2024 un colloque avec pour thème les 2 nouvelles directives européennes

1er COLLOQUE EUROPÉEN
AVEC POUR THÈME LES 2 NOUVELLES DIRECTIVES

EUROPEAN CONFERENCE : FOR A "EUROPE OF INDEPENDENCE, SOVEREIGNTY AND SOLIDARITY".

February 17 and 18, 2023 STRASBOURG CEJ QUARTIER EUROPÉEN

COMPTE RENDU DU COLLOQUE

CONFERENCE REPORT

PANEUROPE à 100 ans - PANEUROPE is 100 years old

UNE EUROPE « PUISSANCE INDÉPENDANTE, SOUVERAINE ET SOLIDAIRE »
AN « INDEPENDENT, SOVEREIGN AND UNITED POWER » EUROPE

Colloque international PanEurope 2023
organisé par :
l'Union Paneuropéenne de France, CFUP
avec :
l'Union Paneuropéenne Internationale

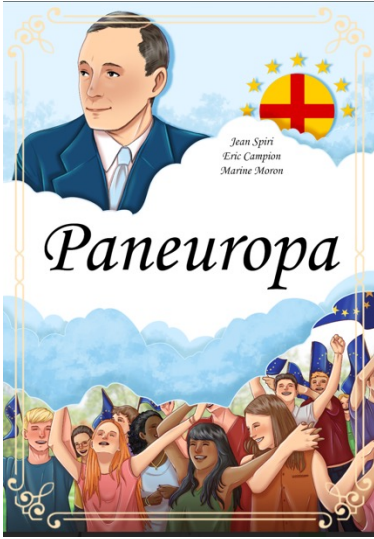

International Conference PanEurope 2023
organised by :
the Pan-European Union of France
with :
the International Pan-European Union

17 et 18 Février 2023 STRASBOURG 17 and 18 February 2023

Thank you to the speakers
and audience from the
following countries:
Croatia, Estonia, France,
Germany, Spain,
Italy, Northern Macedonia,
Montenegro, Portugal,
Romania, Slovakia, Spain,
Czech Republic and Ukraine

A COMICTOON TO INTRODUCE PANEUROPE TO YOUNG PEOPLE (and the not-so-young 😊)
 Created by Jean SPIRI & Marine Moron (in French and English)

Since its creation, many intellectuals have supported Paneurope:

- Albert Einstein
- Sigmund Freud
- Thomas Mann
- Heinrich Mann
- Klaus Mann
- Paul Valéry
- Jules Romains
- Denis de Rougemont
- José Ortega y Gasset

EVERY MONTH, AN EXPERT TAKES PART IN A "VIDEOCONFERENCE".
 Examples of PanEuropean conferences online and open to all

« France, Europe, Nuclear deterrence »
 Amiral COLDEFY

« Ukraine, consensus or fault line in the European elections »
 Marie KRATA
 IFRI French Institute of International Relations

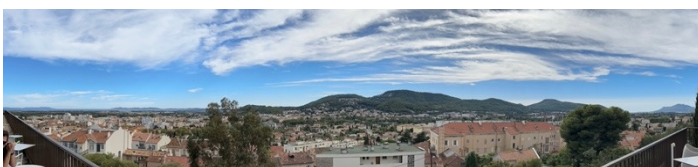

« Solidarity, power, protection : let's dare to build the Europe of tomorrow ! »
 Joséphine STARON
 Doctor of Philosophy
 Director of Research and International Relations, Synopia

« The Sino-American conflict for world domination »
 Christian SAINT-ETIENNE
 Economist, academic, political analyst

FOR THE PAST 4 YEARS, A SUMMER UNIVERSITY HAS BEEN BRINGING PAN-EUROPEANS TOGETHER FOR A WEEKEND.
 Assessment and projects are debated, but it's also an opportunity for round-table discussions with experts

colloque

« NEW CHALLENGES FOR THE CYBERSECURITY OF EUROPEAN NETWORKS, CONVERGENCE OF DIGITAL AND ELECTRICAL ENGINEERING »

The security threat landscape has changed radically in a new context marked by rapidly evolving uncertainties and developments linked to Russia's war of aggression against Ukraine.

In order to protect Europeans, to promote the security of all those who live in Europe, while respecting our European values and principles, it is fundamental to build a future-proof security environment for our critical infrastructures and in particular electricity, its supply and to cope with evolving threats.

Cybersecurity risk management is crucial and of key strategic importance for maintaining the security of electricity supply and guaranteeing a high level of cybersecurity.

In a context of interconnected, digitized electricity systems, the prevention and management of electricity crises linked to cyber attacks cannot be seen as an exclusively national task. The potential for more effective and less costly measures through cooperation at regional and EU level needs to be fully developed. A common framework of rules and better-coordinated procedures are therefore needed to enable Member States and other players to cooperate effectively across borders in a spirit of greater transparency, trust and solidarity between Member States and the competent authorities responsible for electricity and cybersecurity.

COMMISSION REGULATION (EU) 2024/1366 of March 11, 2024

Risks and vulnerabilities and their consequences will be identified. Resilience through convergence between all stakeholders in the fight against cybersecurity threats and an adequate methodology for risk management will be discussed.

Proposals to be put forward with the European objective of collective security

The conference in Strasbourg will bring together CNAM professors holding the "Computer Security" and "Electrical Engineering" chairs, high-level experts from the European Commission, transmission and distribution network communities, the European Energy Regulator and other stakeholders such as recharging operators and aggregators, parliamentarians and industrialists.

PROJECTED PROGRAM

8h00 **Access controls at the European Parliament**
9h00 **Louise Weiss entrance**

& Congress reception

Room
Robert
SCHUMAN

9h00 **OPENING OF THE CONFERENCE,**
